

ROUND HANDRAILMINDER™ SKATEBOARD AND BIKE DETERRENT

PRODUCT DETAIL

These skateboard deterrents are designed for either round or flat-topped handrails. They are made from aluminum and are specially coated with a paintable surface, if the customer wishes to match the deterrents to the handrail. They are supplied with self-drilling and threading stainless steel screws. Made from aluminum with a clear iridite coating that can be painted to match your handrail, or used in its natural silver color.

AVAILABLE FINISH

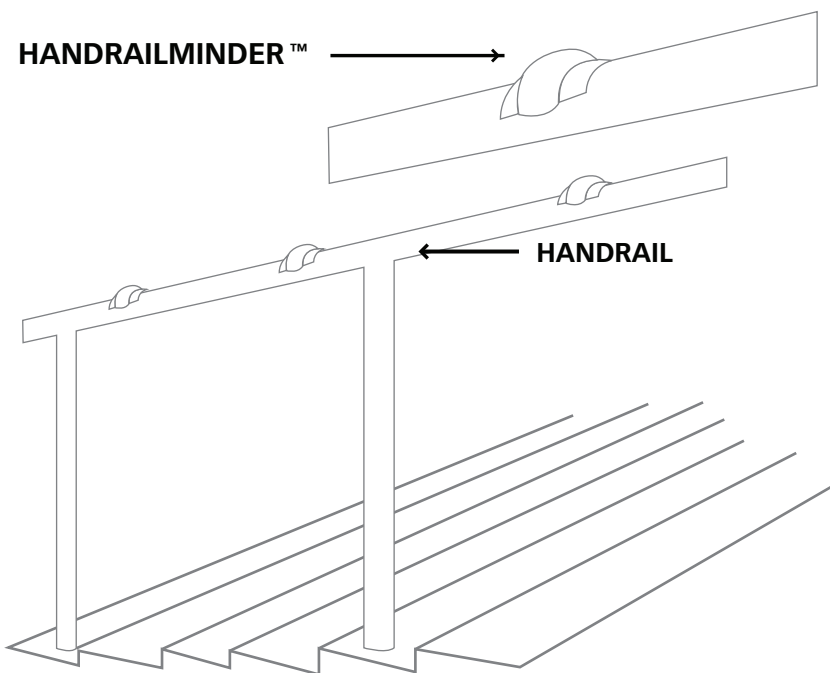

MATERIAL: Solid Aluminum

FINISH: Iridite Clear Coated.

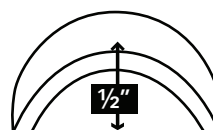

USE: Can be used as-is, or the customer may wish to paint the pieces to match an existing handrail. Paint will successfully adhere to the surface.
